

INNOVATION MEETS SUSTAINABILITY

Transforming air into the purest, best-tasting drinking water on demand. Altitude Water provides an innovative solution to the global water crisis and eliminates the need for millions of plastic bottles.

THE TECHNOLOGY

The purest drinking water in the market, using patent protected Atmospheric Water Generators (AWG), that pulls water directly from the humidity in the air to create pure (distilled) water. Water is purified, remineralized, and alkalized through the process.

Our ozone generator (patent-protected) purifies water storage creating consistent pristine drinking water available 24/7.

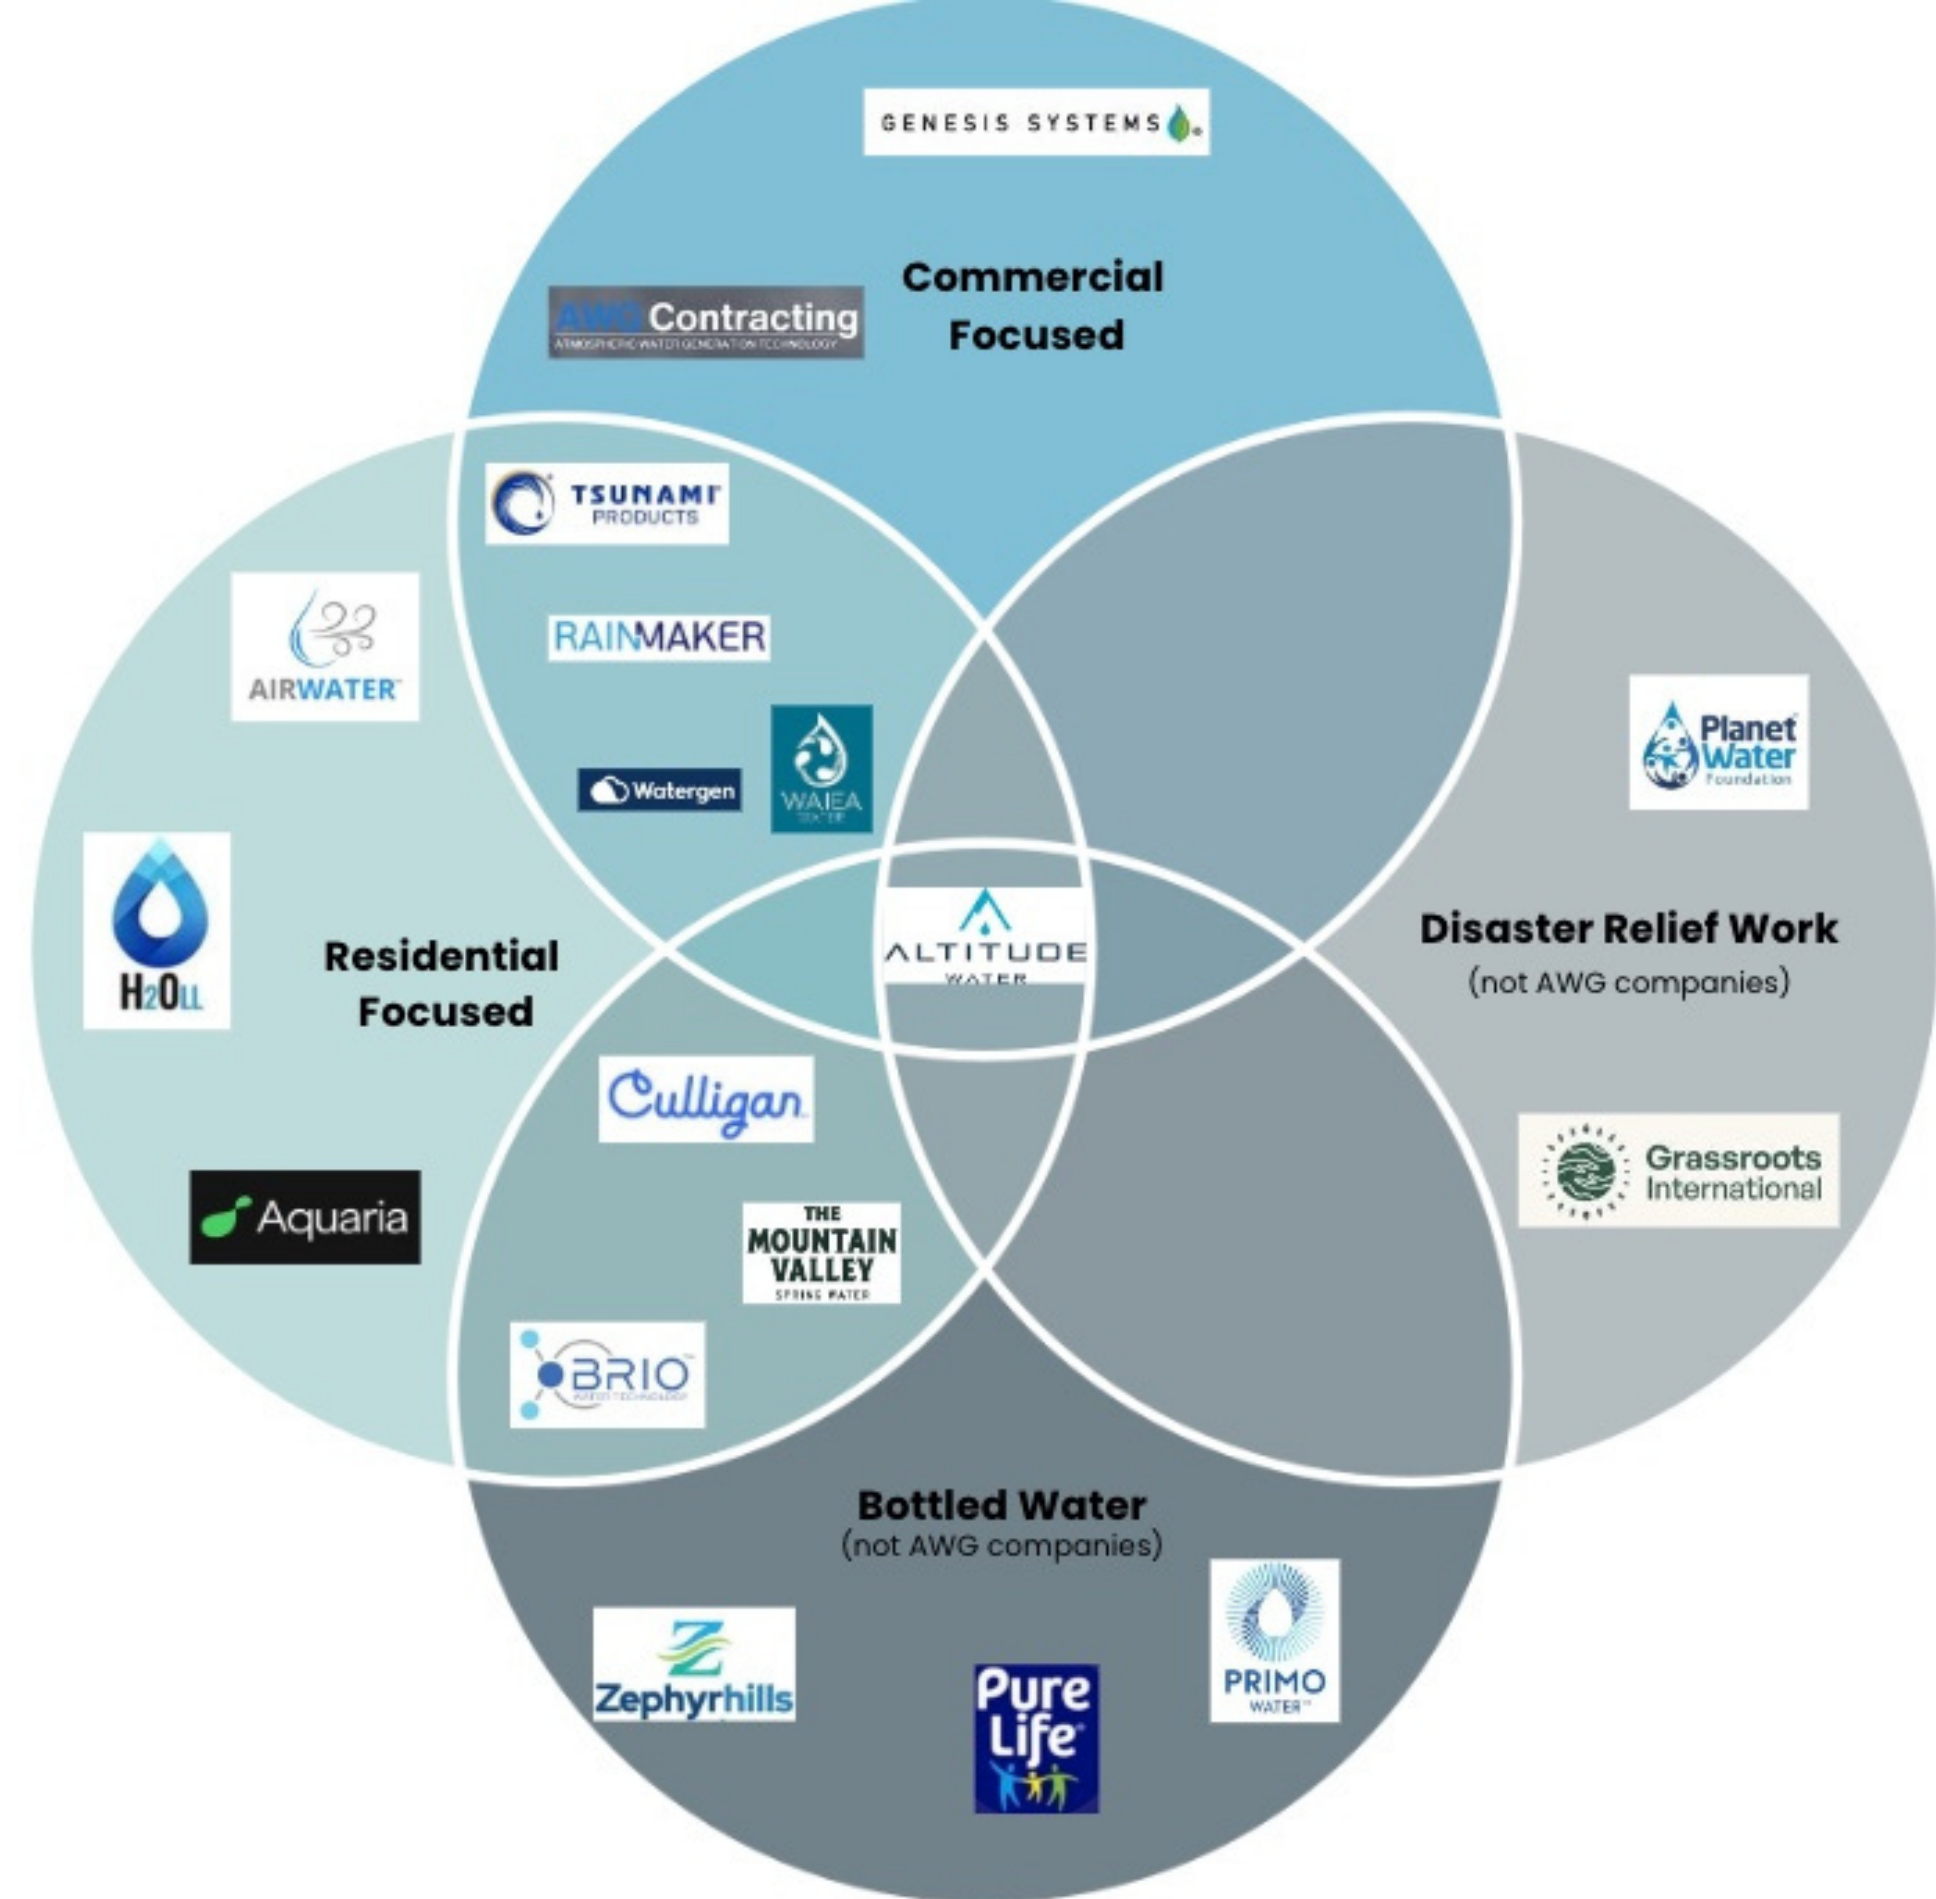

Our generators produce in both extreme hot climates and cold temperatures [60 F-15 C]

The global AWG market growth is expected to touch 6.2 billion USD by 2027

The AWG Industry states over 120 competitors, but currently there are approximately 40 companies who have a physical product, are producing revenue, and create results for customers

Within these 40 companies, Altitude is the only company providing residential, commercial, disaster relief, and soon bottled water.

“The growing need for pure drinking water drove us to develop a cost effective and economically friendly solution now deployed worldwide”.

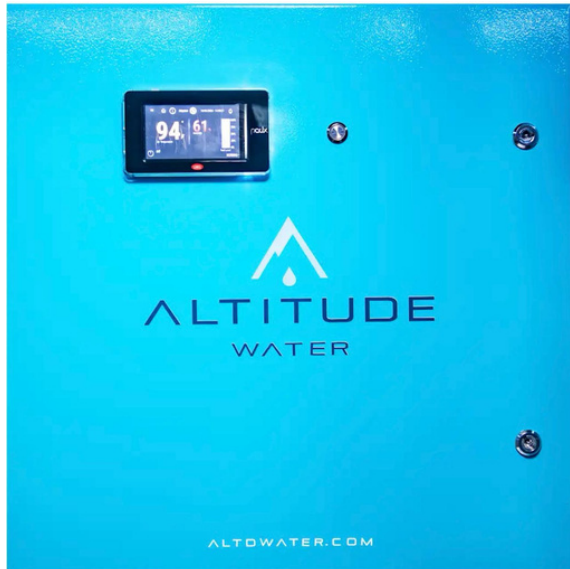

–Jeff Szur, Founder & COO

OUR LEADING PRODUCTS

WATER PURIFICATION BOX

Patented ozone technology to create up to 1500 gallons/day of pure water from the air. Perfect for home use, small businesses, or even off-grid setups.

\$5,999.99

T-12 AWG

Produces up to 15 gallons of pure water from the air daily. Perfect for homes, offices, spas, clinics, RVs, marinas, and schools. The T-12 is the sustainable alternative to bulky 5-gallon dispensers, well water, and bottled water

\$3,999.99

T-100 AWG

Produces up to 185 gallons of pure water from the air daily. Perfect for residential complexes, apartments, hospitals, schools, farms, greenhouses, and restaurants.

\$29,000.00

T-200 AWG

Produces up to 380 gallons of pure water from the air daily. Ideal for military installations, farms, commercial enterprises, etc.

\$55,000.00

DISASTER RELIEF TRAILER

The Altitude Water Disaster Relief Trailer is a solar-powered, multi-functional unit designed for disaster resilience.

- + Produces up to 210 gallons of pure water per day, depending on humidity levels.

[production dependent on the model installed and humidity levels]

- + Purifies over 1,500 gallons from external sources, supplies electricity, and offers communication via Starlink

- + Versatile in use, it supports nonprofits, operates during boil water alerts and provides on-site water bottling capabilities

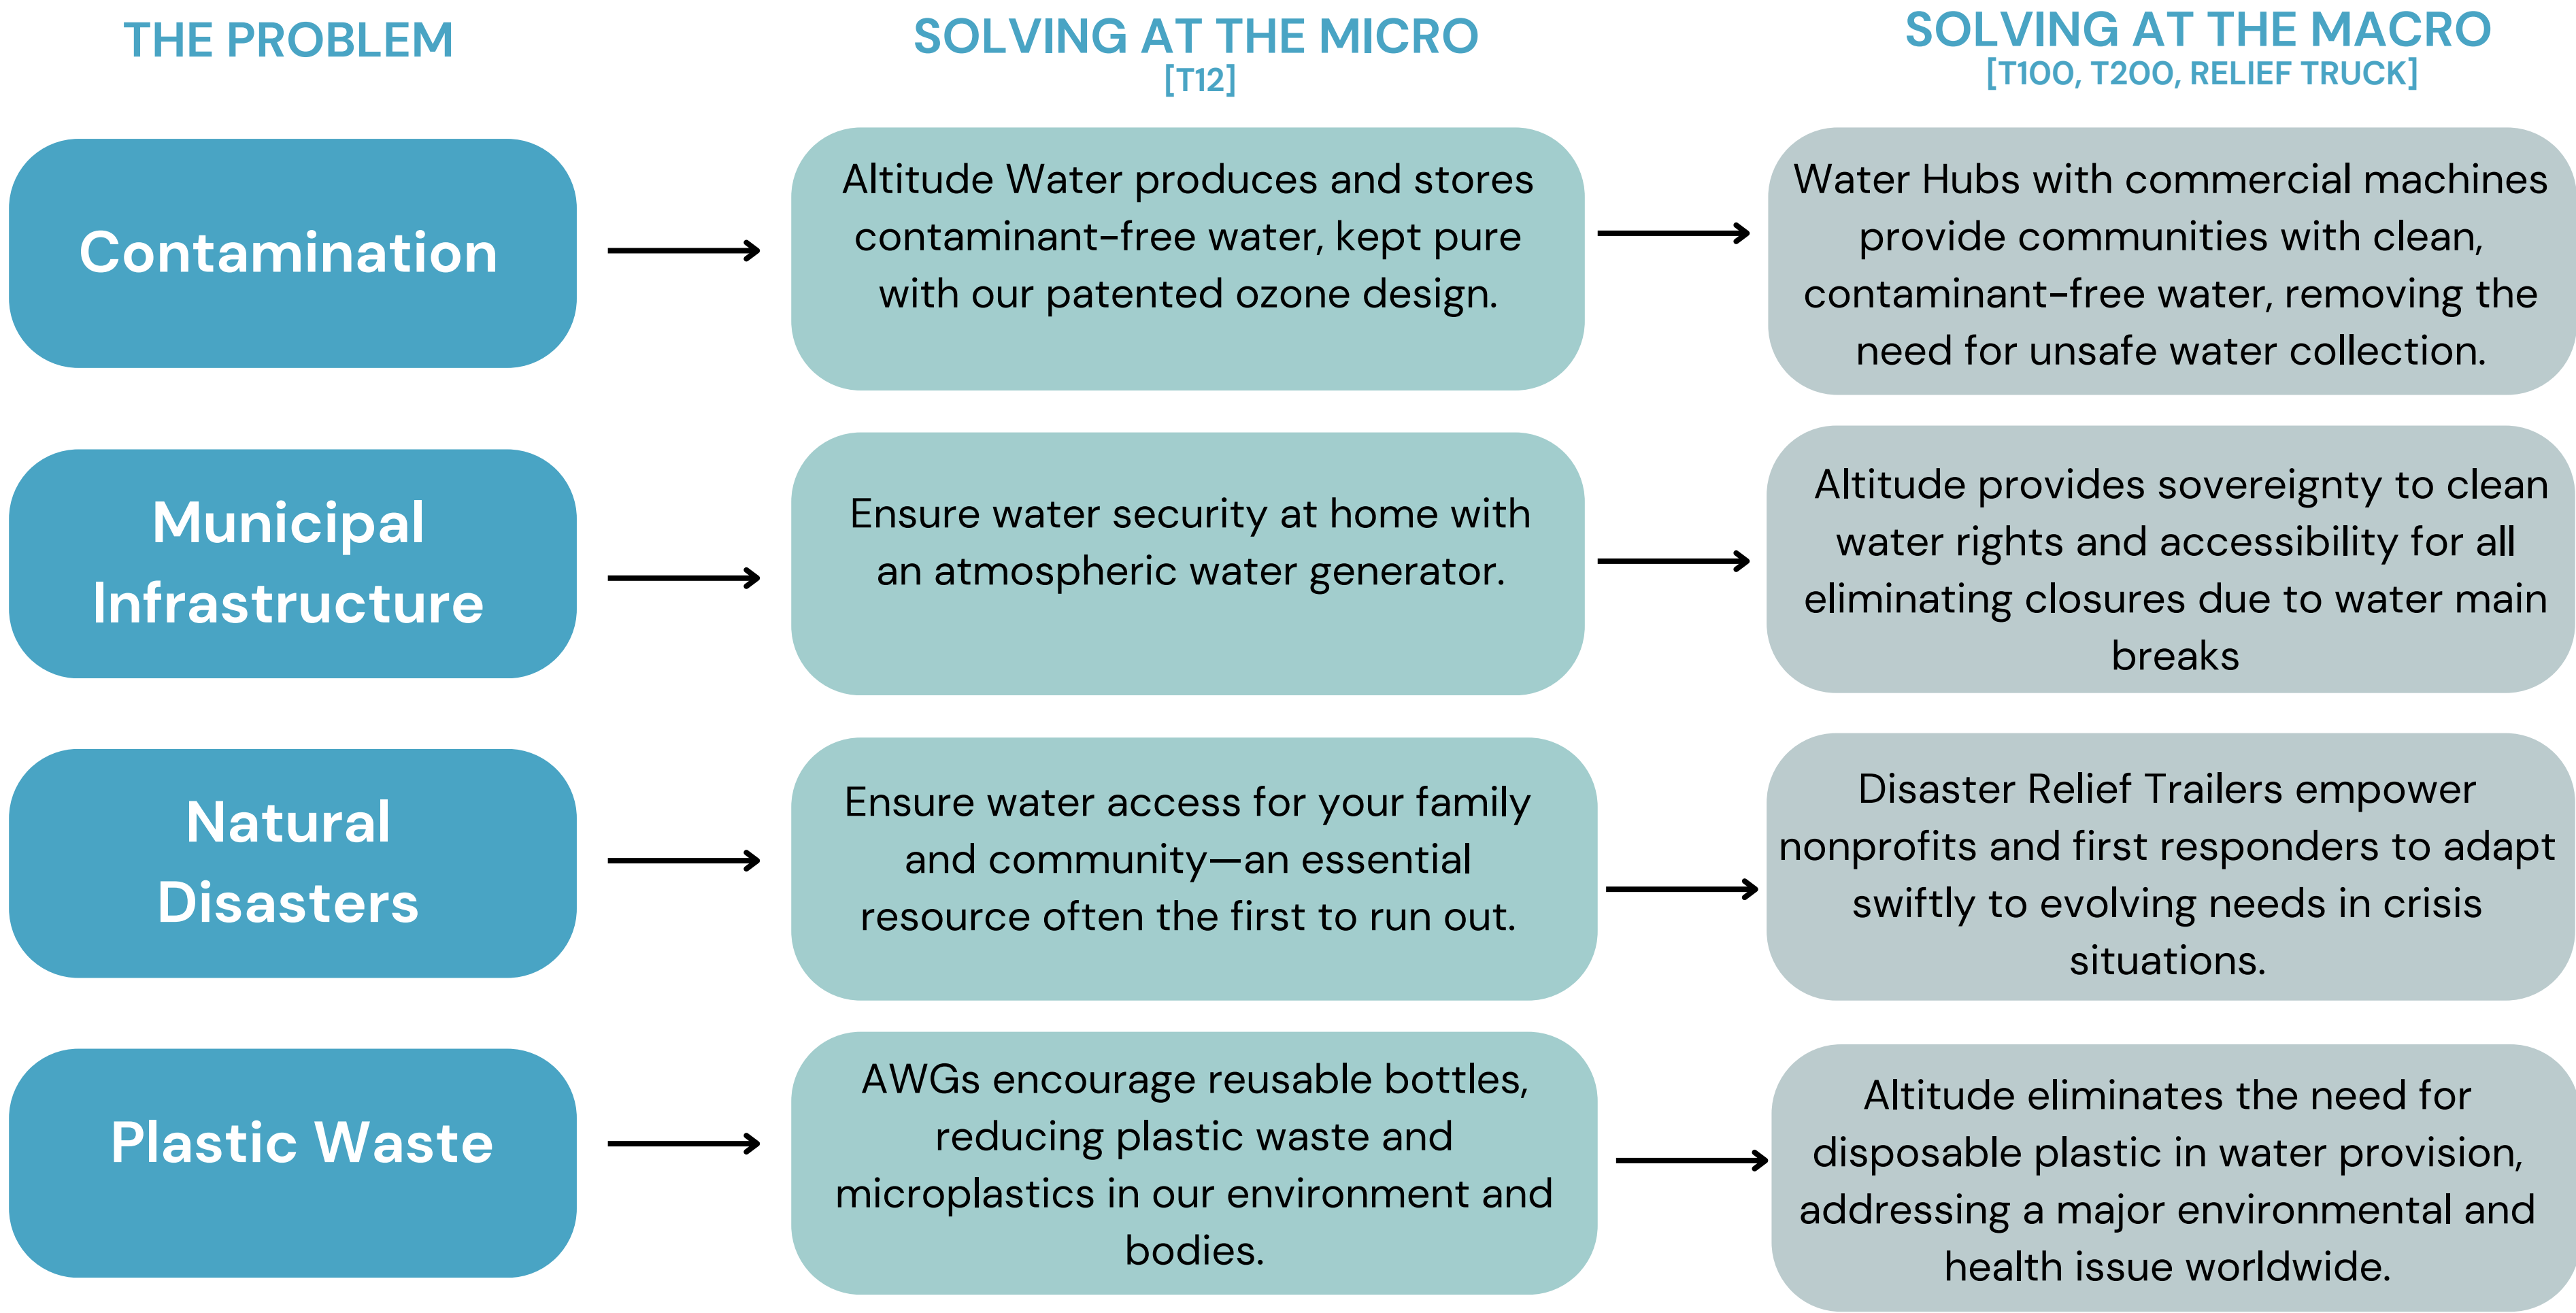

- + Raises awareness for sponsors—making it a valuable, sustainable asset for emergency and community applications.

In October 2024, Altitude Water's disaster relief trailer provided essential water support in Asheville, NC, and Perry, FL, following hurricanes.

Featured in major news, the trailer supplied communities, enabled first responders to meet government standards, and attracted strong interest from potential partners and customers, showcasing our critical role in emergency response.

WATER PROBLEMS & SOLUTIONS

**Altitude Water
revolutionizes water
access with:**

100% production taking
place
in the USA

Exclusive patent-protected
ozone purification, self-
cleaning, oxygen-enriched
water system on the
market.

High caliber product and
commitment to
sustainable water
solutions, Altitude Water
offers an opportunity in a
high-growth market.

Altitude Water is selected by the United States Armed Forces as the
drinking water source both domestic and in deployment.

To date, the US Military has purchased:

- 40 – T12 units
- 4 – T200 units
- 2 – T100 units

We have recently partnered with NOBLE, who is an approved vendor to
focus on increasing government contracted sales.

PATENT 7,272,947

Altitude Water owns Utility Process Patent 7,272,947 that makes us the only AWG company on the market that is legally providing the Ozone Technology curating the purest and freshest drinking water during and post production (being held in the storage tank).

There are 3 years left on the patent, with the ability to file for additional patent, extending patent protection for an additional 17 years. We own the prior art of the patent.

With changes to the ozone injection process and relegating software, when filing for extension, the updated process will be included and patent protected.

STRATEGIC PARTNERSHIPS

Altitude Water partners with non-profits, churches, humanitarian groups, and like-minded distributors. Our partners provide us with large projects to be able to fulfill and opens the space for connection to regions and customers around the globe. We are committed to creating win/win/win scenarios with those we work with as well as the people we serve.

Other Partners Include:

Noah's Arc Foundation

A nonprofit started by Joakim Noah is involved in a number of humanitarian water projects stretching from Africa to Hawaii to Chicago.

Compassion International

Currently working with Compassion International and Amy Grant to install a Water Hub in an African village in Togo, Africa

Footprintproject.org

Partners for 14 months beginning in Maui, HI. Collaborated in the latest relief efforts in Asheville, North Carolina and Perry, FL during hurricane disasters. Currently in discussion for multiple trailer support projects

Amy Grant & Barefoot Republic Camp at The Farm

AquaVera [France]

Good Vibrations Music Company (Frequency non-profit)

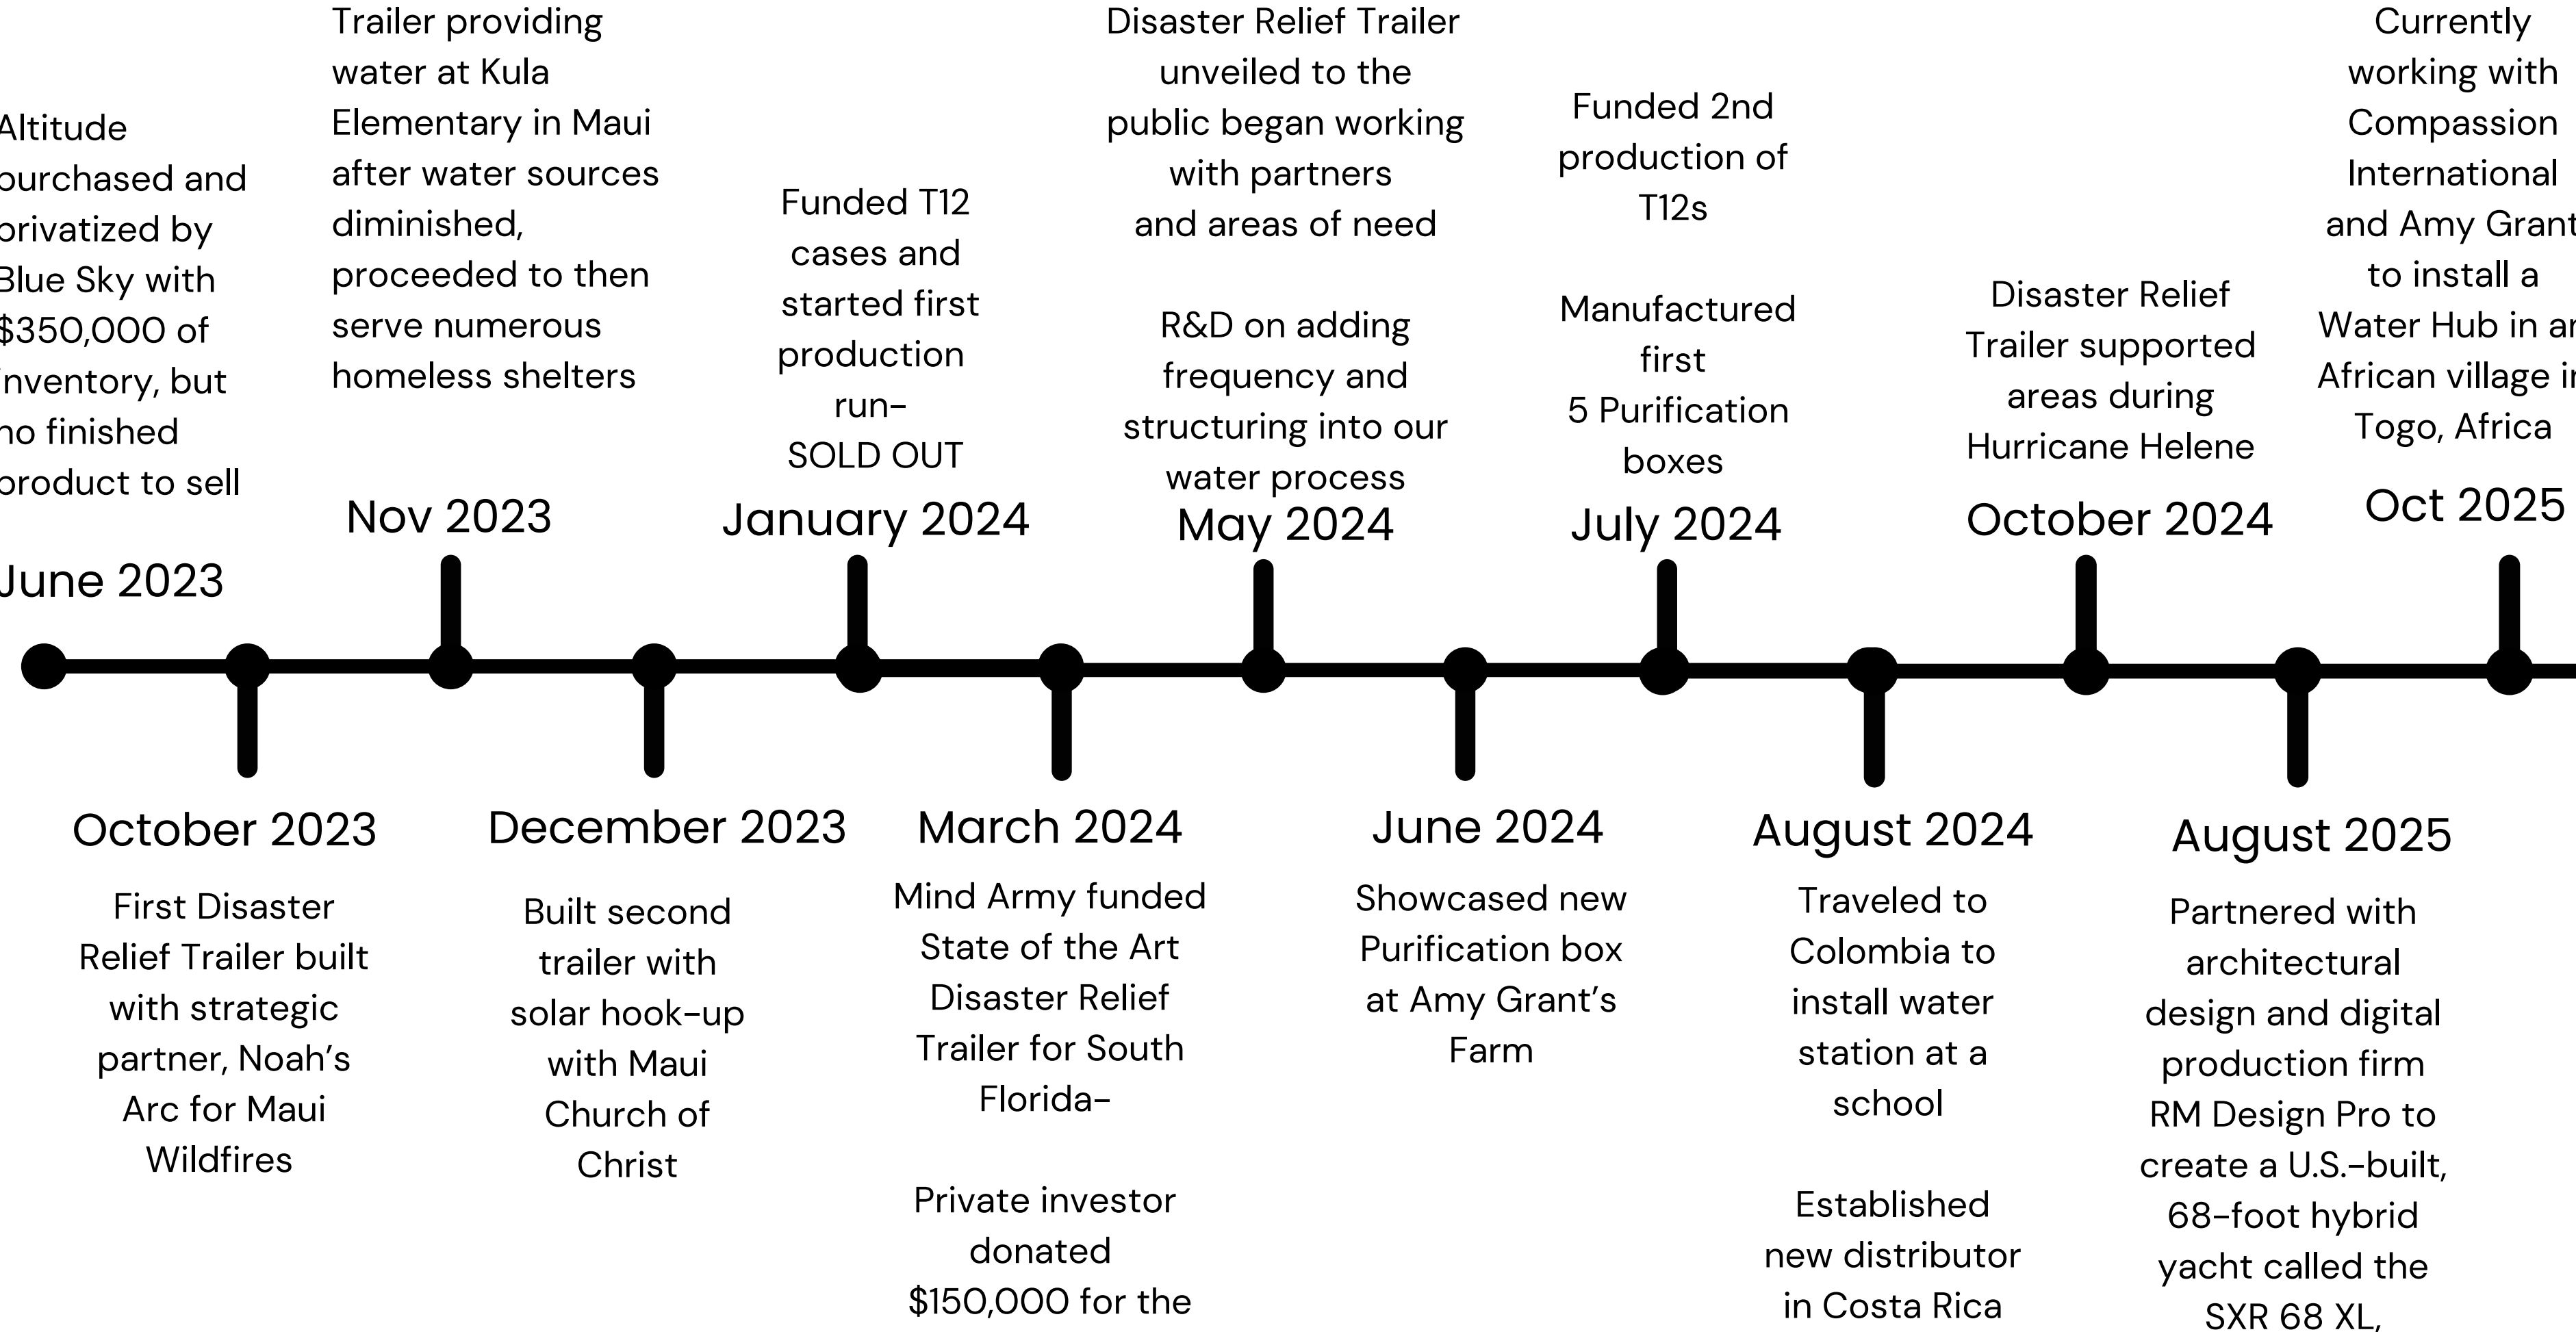

Jean-Felicien Gacha [Africa]

Fiixx Foundation

Grassroots Aid Partnership

ALTERNATIVE ENERGY PARTNERSHIPS

African Solar

New Use Energy

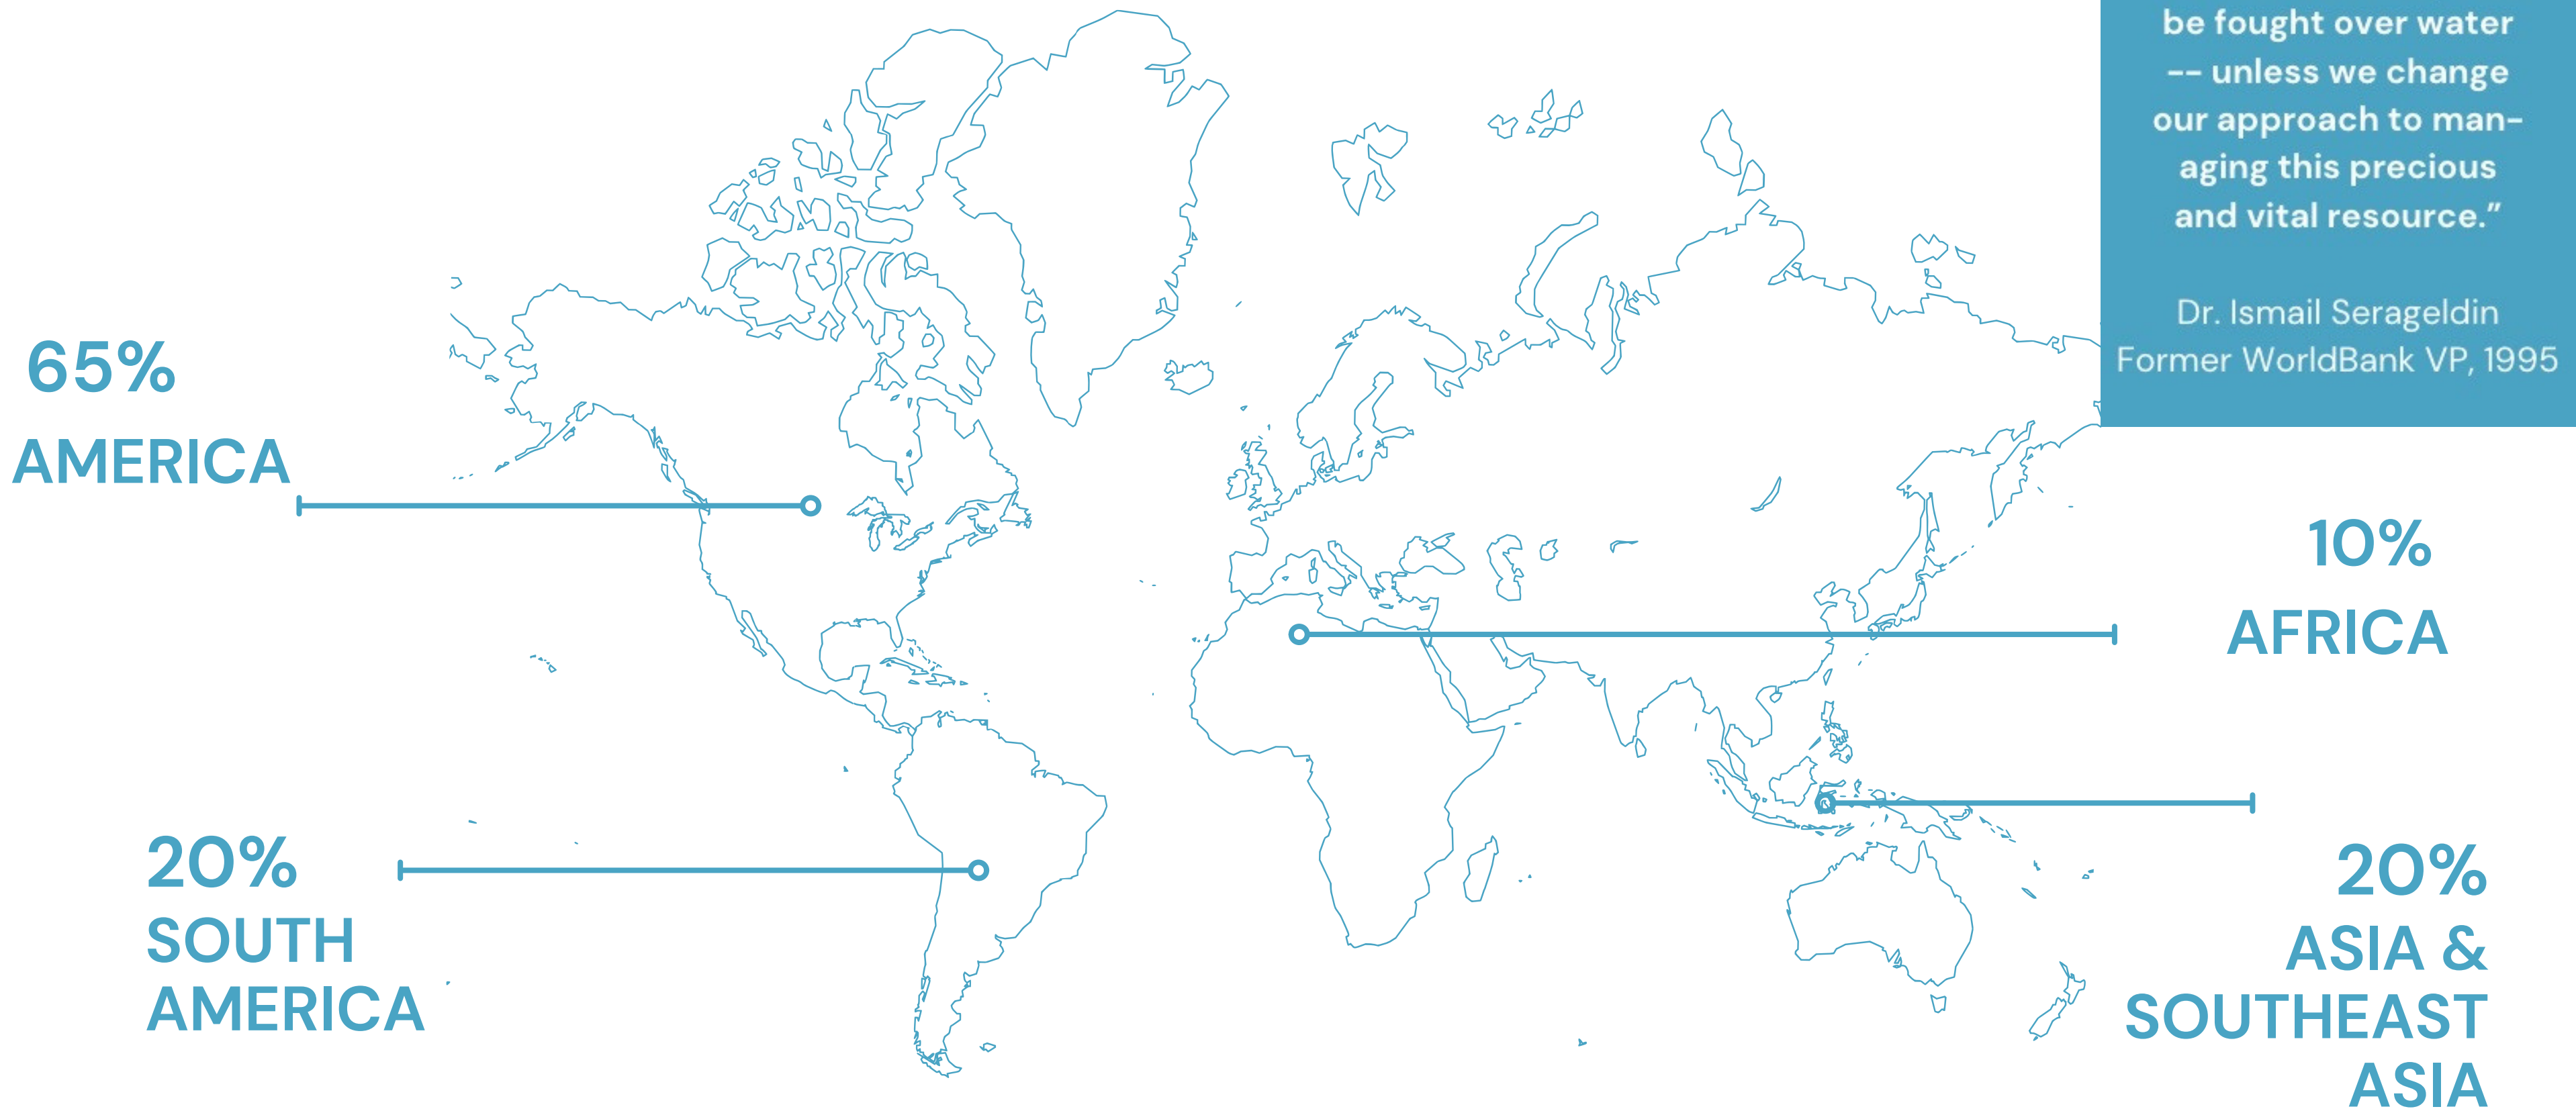

FootPrint Project

Alternate Energy has made our technology able to run in remote areas and opened us to forming partnerships with solar energy companies around the world. All systems have the option of a solar connection for production, making our technology available for off-grid communities, remote locations, and poor economy regions.

We have partnered with 3 solar companies to date, and continuing to expand our partnership reach

ALTITUDE'S CUSTOMER DEMOGRAPHIC IS CURRENTLY LOCATED INTO THE FOLLOWING AREAS

"If the wars of this century were fought over oil, the wars of the next century will be fought over water -- unless we change our approach to managing this precious and vital resource."

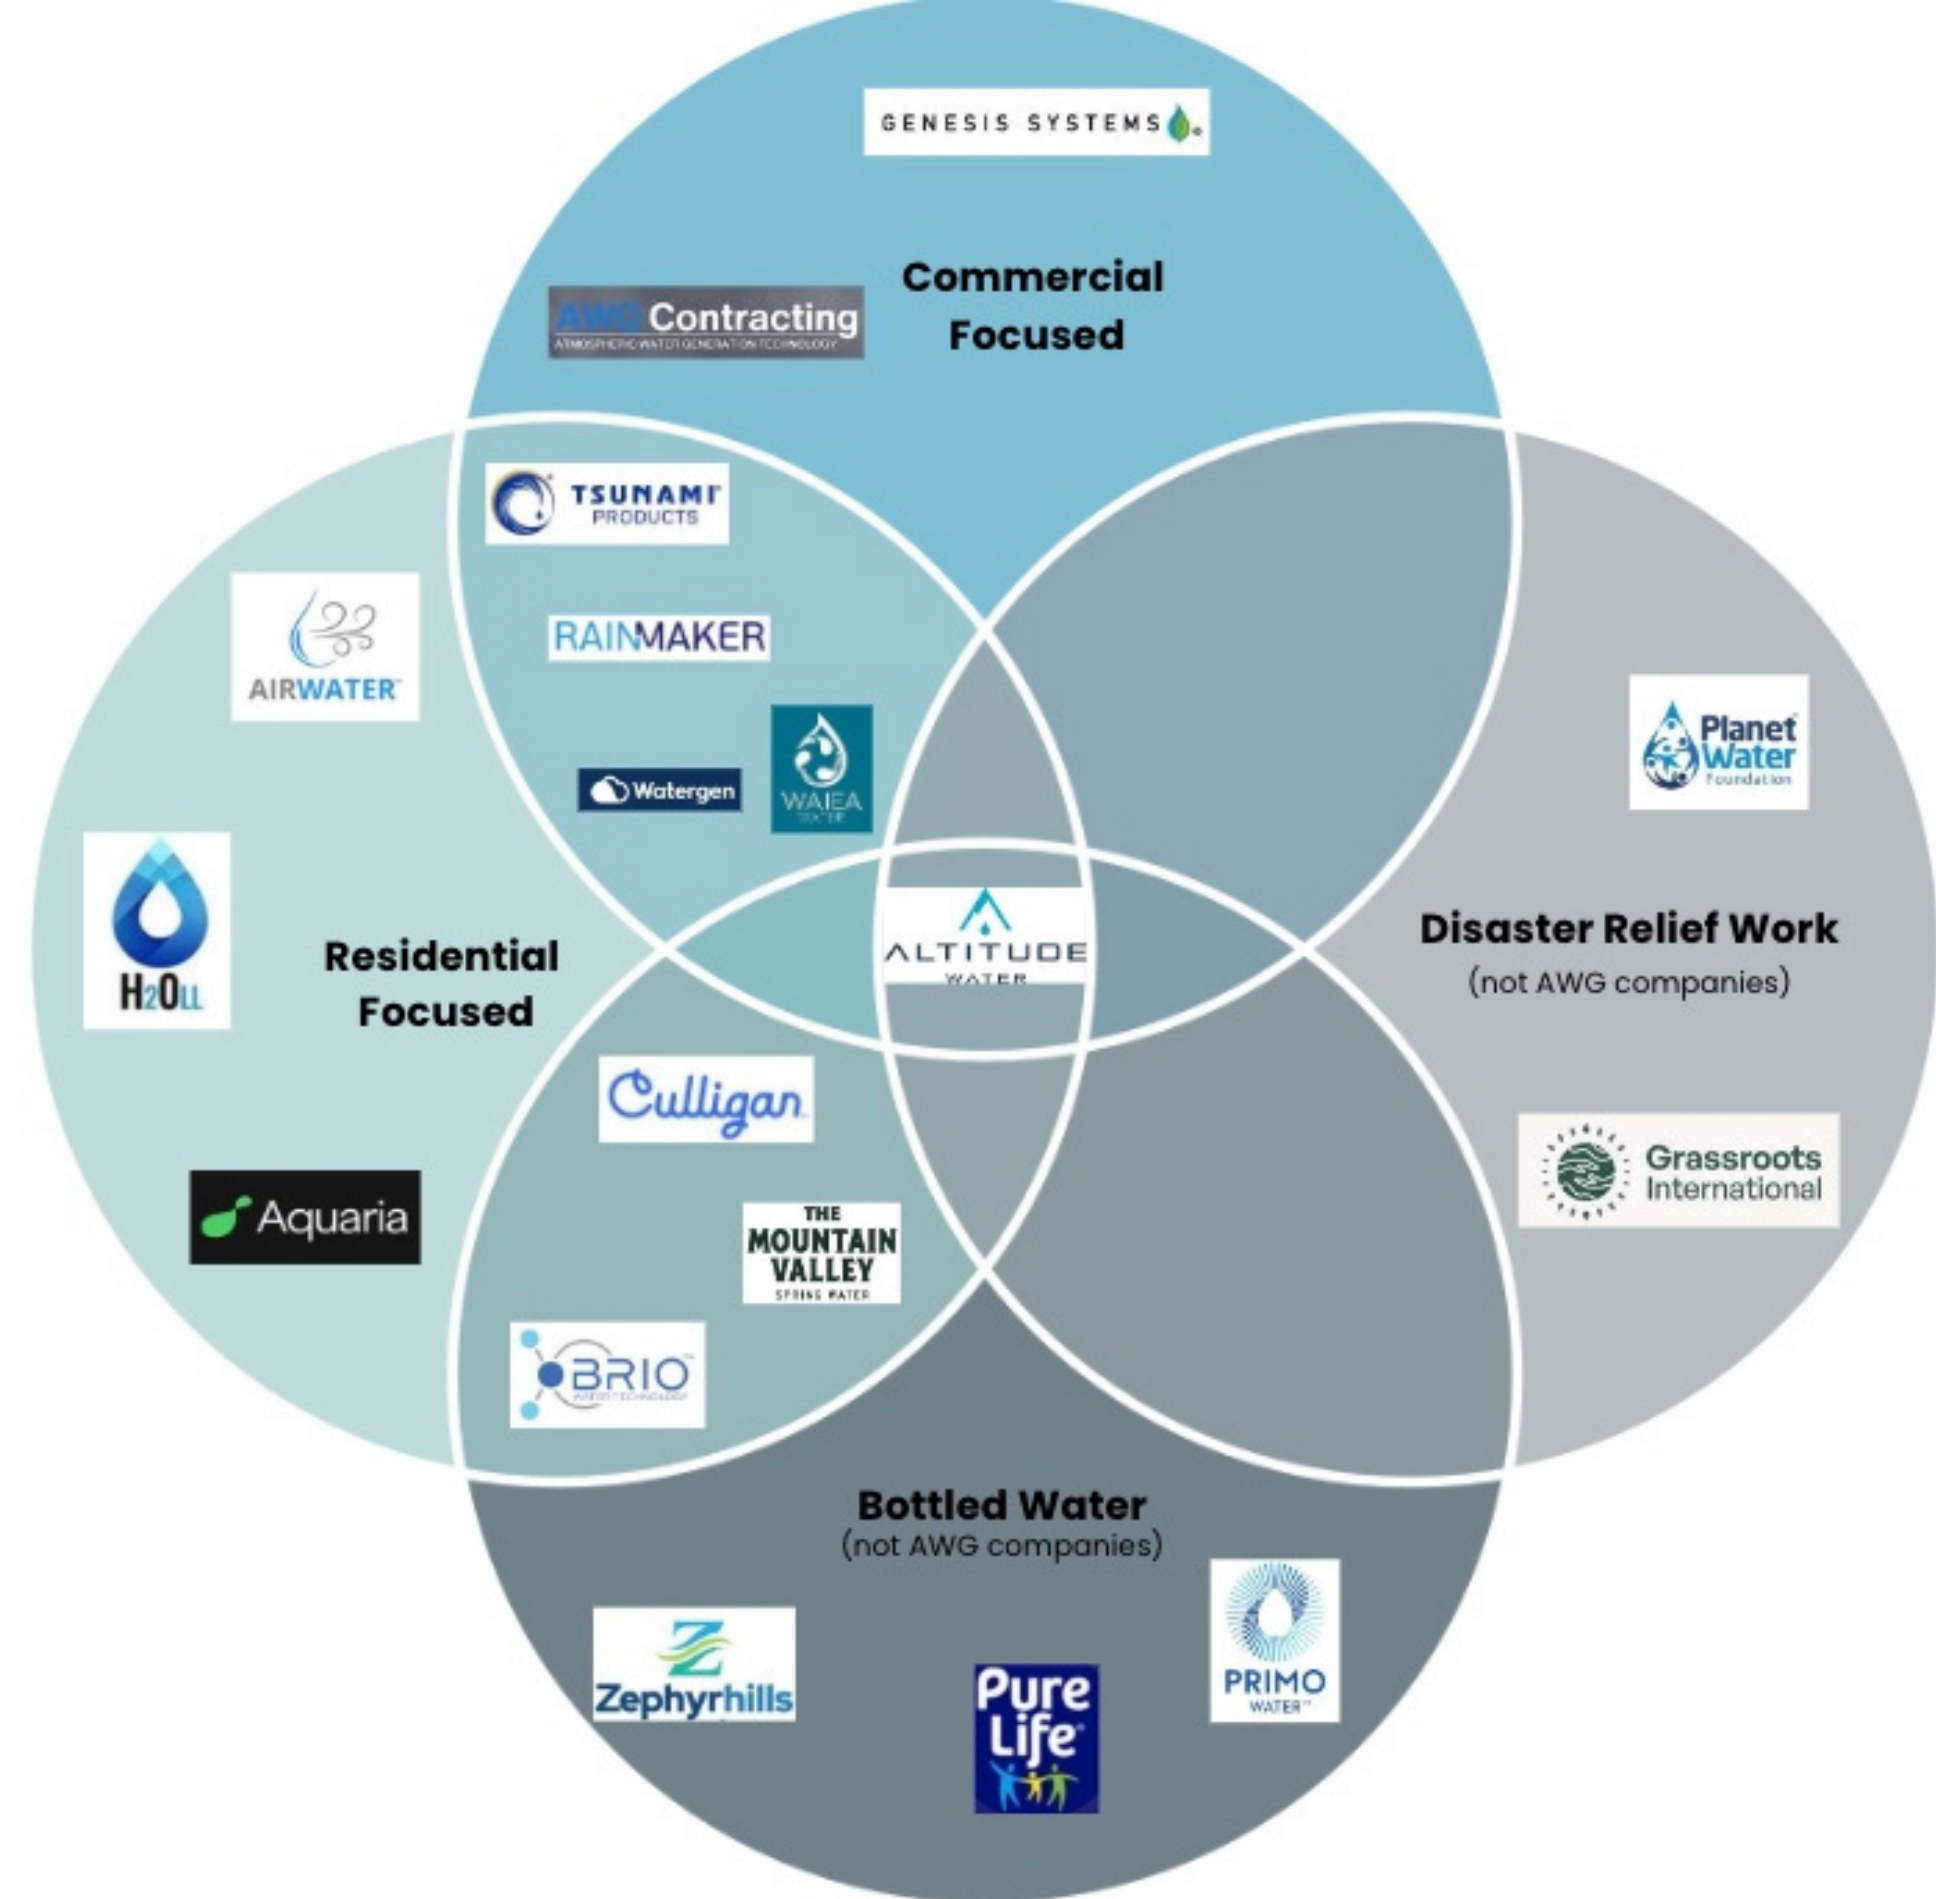

Dr. Ismail Serageldin
Former WorldBank VP, 1995

The global AWG market growth is expected to touch 6.2 billion USD by 2027

JEFF SZUR FOUNDER & COO

Jeff, a globally recognized AWG expert, has spoken at water conferences and appeared on outlets like Worldwide Business with Kathy Ireland, the Weather Channel, and Florida news stations. Founder of Drinkable Air, LLC in 2008, he pioneered U/V and reverse osmosis machines, later developing the first ozone purification machine and moving manufacturing to the U.S. in 2009.

AMBROSE SZUR CEO

Co-founder of Drinkable Air, LLC since 2008, Ambrose Szur funded R&D in Trinidad before relocating manufacturing to the U.S. A serial entrepreneur, he views water as the next oil, driving his involvement in Altitude Water.

WITH OUR NEXT FUNDING
ROUND, ALTITUDE WILL BE RESTRUCTURING
AND LOOKING TO HIRE THE FOLLOWING NEW
ROLES:

CFO
Director of Operations
Marketing & Sales Teams
Customer Experience

SOZON LYRAS PRESIDENT

Seasoned entrepreneur with a proven track record in brand development and licensing, currently bottling energy drinks for the Ric Flair brand. Extensive network of contacts eager to invest in the Water Bottling Facility

JAYMIE DITZLER OPERATIONS MANAGER

Licensed HVAC technician Jaymie specializes in machine design and airflow, enhancing water production by over 40% and improving efficiency in low temperatures and humidity.

ALVARO DASILVA MANUFACTURING MANAGEMENT

With AWG experience since 2007, he worked with Jeff at Drinkable Air to develop patented ozone purification machines. Joining Jeff at Blue Sky Strategy in 2019, he applied his expertise to design the military-grade external tank and Amy Grant's Water Hub.
